Setting up of CISCO Networking Training Academies in the State

Department of Information Technology, Government of Meghalaya in partnership with M/S CISCO Systems, the premier networking company in the world, intends to promote setting up of Networking Training Academies in colleges/non commercial technical institutions in the State. Under the hierarchy of courses from the CISCO Academy, the courses currently on offer are:

1. IT essential course
2. CCNA (Cisco Certified Network Associate) course

Setting up of an Academy for enhancing IT related vocational skills of students involves certain commitment from the college/institution concerned. As part of the support from the State, the Information Technology Department shall contribute Rs.1.00 lakh to the selected college/institution for taking up the IT Essentials course and Rs.5.00 lakhs of funding support for CCNA.

Applications from colleges/non-commercial institutions desirous of availing this support are invited within 28th February 2007. Details of the Courses and other criteria may be downloaded from Website at http://meghdit.nic.in / http://ditmeghalaya.gov.in and should be addressed to the Commissioner & Secretary, IT indicating therein the infrastructure currently available, willingness to conduct the course, availability of technical staff, etc.
